# SCIENSATIONAL FOLLOW ME ROBOT

---

## 7-12 yrs / 1 wk starting Aug 5 / \$189

It detects the sound source and then moves and turns accordingly. It is your own robot to build and take home! This robot flashes lights and plays Do-Re-Me. It is so smart that it moves to its own routine if it does not get a signal in 1 minute. It will go to sleep if you do not issue any commands for 90 seconds. Learn about the different gears and sensors as you build it. Build other robots working in groups. Join in our Sumo wrestling and obstacle course events with what you build. Learn how the different electronic components work. Register for *Magnetic Levitation for Future Transportation* camp ([RP1795.401](#)) and Lunch Option ([RP1769.403](#)) to make a full day. Registration: 410-313-7275. Call 410-313-4625 for Aftercare options.
